

Increasing Prospect Retention

Script:

Skill. That is the first thing... delivering results is the most important...

Second.. loyalty programs.. I talked about this in the video series. Here's a create example of what you could give them: titles... the longer they stay the bigger status they have within your client community...

And that take us to the third thing... if you're going group coaching or even 1-1 training, allow your clients to talk with each other... have a community in discord or skool. This is from chapter 8 of the Influence by Robert Cialdini.

Forth... have a continuity offer... more about that in my business models video, have a look in the resources...
