

Increasing Show-Ups

Script:

I'll make this very fast... there are three ways to increase show ups...

First.. we could turn up lead flow to the books, and then increase friction while collecting data with a form to increase lead quality.. which will increase show up rates

Second... we could make it required for them to buy a product to get a call with us... an advanced move only used when low show ups are costing you a lot of money.

Third... we could make a better show up sequence.. or create one if we don't have one.. check the resources for that.
